Errata for the Third Printing of *Discovering Design with Biology*

Student Text

p. 189   "Roman **number**" should be **numeral** in 5c and 5d\

p. 215   "that it takes about 1 million lying **size**-by-side" Should be **side**

p. 219   In 7.7, "are part of the **gammaprotbacteria**," should be **gammaproteobacteria**

p. 234   Step 34: "center a **stricture**." Should be **structure.**

p. 279   **"**On the head are antennae, and on the ventral size" Should be **side**

p. 317   The first **10.4** should be **10.3**

p. 332   "This what the testudines face all" should start "This **is** what…"

p. 334   "11.13. It shows photo of" should be "11.13. It shows **a** photo of"

p. 334   **"**tissue could survive for millions of year" should be **years**

p. 364   "left ventricle. When the **right** ventricle" should be **left**

p. 387   "in plant cells, you will also **will** find" delete **will**

p. 474   #7: "It should read about 95.0 °C (203 °**C**)" should be **ºF**

p. 500   "This amount precipitation" should be "This amount **of** precipitation"

p. 505   "Section **16.11**: The Ocean Ecosystem" should be **16.12**

p. 507   "Section **16.12**: Fine-Tuning in Ecosystems" should be **16.13**

Answer Key and Tests

p. 49   "5. **What i**n what organisms" should be "In what organisms"
