

Errata for the First and Second Printings of *Science in the Ancient World*

p. 153: The quote referred to in the “older student” assignment is actually on page 151, not p. 105.

Helps and Hints

p. 24: The answer to #2 for Lesson 77 should read, “When water flows through pipes, the amount of water leaving the pipe has to be equal to the amount entering the pipe.” (The sentence currently ends “leaving the pipe.”)
